wePresent WiPG-1600

The WiPG-1600 model is affordable and packed-full with features, including iOS AirPlay and touchscreen support. This product has been discontinued. For its replacement, refer to the WiPG-1600W.

- **Insert a USB token into your wePresent to open files, view documents and images, or play audio and video media.**
- **Stream video files to the wePresent with full 1080p resolution and no latency.**
- **On screen annotation for more interactive presentations.**

Like all wePresent models, WiPG-1600 offers cross-platform compatibility allowing Windows, Mac OS, Android and iOS devices to present and interact together. WiPG-1600 also offers basic support for Apple AirPlay. Allowing users to mirror iOS devices through AirPlay in up to 1080p resolution.

Control meetings and learning

The conference control feature allows for a moderator or teacher to manage which of the connected users are allowed to present. Conference control is a feature highly sought after in classroom technology solutions, where monitoring presentation content is crucial. Conference control can be quickly and easily accessed through the wePresent IP web page, or the on screen lock display by using a wireless mouse. Now, teachers and presenters can control who presents, when they can display their device, and disconnect users from the wePresent with a simple touch.

Touchscreen controls for interactive presentations

WiPG-1600 integrates with touchscreen displays and smartboards to allow wireless control of any user's device. Utilize your interactive touch display from multiple devices on the fly, effortlessly switching between different devices or users. Interactive touch displays allow user's to remotely access. wePresent features such as on screen annotation and the interactive whiteboard. With smartboards becoming more available and widely used in different organizations, having control of your wireless presentation is a must-have.

64 member use queue for large groups

Meetings and classrooms come in a variety of sizes. To help manage even the largest environments, WiPG-1600 offers interactive presentation and collaboration solutions that allow up to 64 users to connect and participate. All connected users can take turns presenting, fostering a truly collaborative multi-user experience. Moderator can select any of the connected participants from the on-screen queue to present, as well as disconnect individual users or the entire queue.

WiPG-1600 bring interactive features to meeting and learning environments of all sizes at at an affordable price.
