

Dual Column Lift Motorised Height Adjustable Mobile Cart

Model: OS-TW100

Fits Most 55"-100" Interactive Flat Panel, LED, LCD TV.

This unique New model TW-100 Dual Column Lift version is looking even better now with dual motors located inside the columns. The all new TW100 is designed to provide solutions to ease your mobility of entertainment, lecture, meeting and conference and exhibition. Fit for most 55"-110" Touch Panel, LED or LCD TVs, this innovative mobile display design includes dual heavy-duty anodized aluminium alloy columns to support screens up to a huge 110". Easily adjust the height at the touch of a button on the electric remote control on the column or on the new wireless fob for up to 5m away. It easily copes with screen weights up to an impressive 136kg thanks to the new twin actuators.

The height can be adjusted 500mm with a max thrust of 4000n and universally suitable for 110V-240V Voltage. With 4 heavy duty braked 100mm castors included it makes mobility effortless or static positions safe and secure.
